The following modifications are therefore incorporated into the State Universities Civil Service System classification plan.

Class Specification and Examination Components/Instruments

The new class specifications and examining instruments for the Pharmacy Technician Specialist class will be effective (available per E-Test) August 1, 2007. For details on class specification and other information i.e. occupational area, work area, promotional line, etc., visit the class specification link at our website at www.sucss.state.il.us.

Pay Rate/Ranges

Employers should establish new pay rates/ranges to accompany the above changes. In some instances, establishing a wide pay range will optimize the opportunity of each employer to properly reflect their individual compensation programs for these operations and positions.
