The following modifications are therefore incorporated into the State Universities Civil Service System classification plan.

### Voiding/Deleting Registers

The registers for the Plumber Series should be voided at the close of business on December 14, 2007. All testing materials related to these titles should be destroyed.

### Class Specification and Examination Components/Instruments

The new class specifications and examining instruments for the Plumber Series will be effective (available per E-Test) December 15, 2007. For details on class specification and other information i.e. occupational area, work area, promotional line, etc., visit the class specification link at our website at [www.sucss.state.il.us](http://www.sucss.state.il.us). The 2004 Illinois Plumbing Code Book must be available for applicants taking the Plumber, Plumber Sub-Foreman, Plumber Foreman and/or Plumber General Foreman Knowledge Tests.

Pay Rate/Ranges

Where necessary, employers should make adjustments to or establish new pay rates/ranges to accompany the above changes. In some instances, establishing a wide pay range will optimize the opportunity of each employer to properly reflect their individual compensation programs for these operations and positions.

Seniority

Seniority calculations should be reviewed and established based on the final classification assignment.
